The following warships were observed in the naval harbor of ODESSA (46029°N/30044°E):

- 1. One destroyer * which was stationed in the naval harbor from the Fall of 1947 to the Spring of 1949.
 - This destroyer was 260 to 300 feet long, had a straight stem, high forecastle with one gun, small bridge, vertical masts, three vertical funnels, the central one being the biggest between the central and aft funnel remarkably high compact superstructures with searchlights; on the quarter-deck two single guns one behind the other.
- 2. Two submarines **, length above water about 40 feet, low deck superstructure, coming tower about 3.3 feet wide, about 5 feet aigh, no armament visible, net saw at the bow. Soviet sailors said that the complement of such a boat is about seven persons,
- 3. Six to eight minor war vessels were permanently stationed in the nevel herbor. These vessels resembled the German mine sweepers.
- 4. On the outer roads of ODESSA, about a mile from the coast, observed the following units, which were mored there most of the time:

a. Destroyers : Two considerably inclined funnels, AA gun position and rear must close to second funnel, low forecastle with two twin-guns in shields, high bridge with high foremest, low after section with four guns in superimposed twin mounting, The destroyers were painted gray.
